Newsletter

October 2016 Volume 1 Issue 1

Volume of CSF Collected So Far

Total Amount Planned

Dear HDClarity Teams!

Welcome to the first issue of the HDClarity Newsletter.

As of 01-02-2016 01 site is active (UCL) and recruitment is progressing. The study is currently under review by research ethics committees in Canada, the UK and Germany and we hope to start recruiting there soon.

Please contact UCL Central Coordination if you have any questions;

Senior Trials Coordinator: Gail Owen

g.owen@ucl.ac.uk

Study Administrator: Stef Gosling

stefanie.brown@ucl.ac.uk

HDClarity Updates

Electronic Data Capture (EDC)

The EDC system is live and the University College London clinical site have entered their participant data.

Lab

University College London have successfully shipped samples to BioRep Milan.

The lab manual is available on the live system which gives a step by step guide on equipment, sample collection, processing, storage and shipment.

Greenphire

Clinical site payments will be made using the Greenphire system.

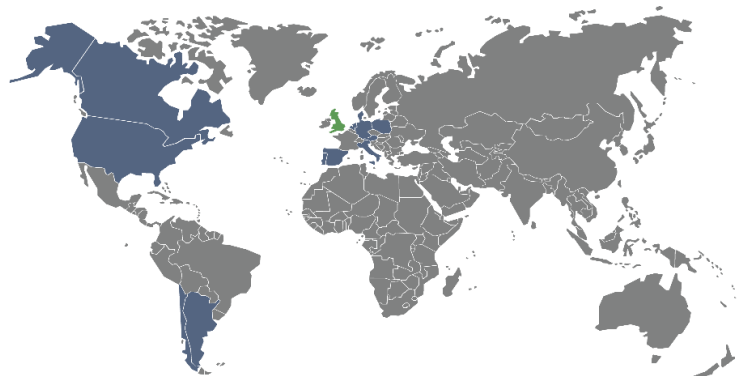

Site Training

All manuals and training videos are available on the live EDC system and full training will be provided to every site during the SIV.

Conference/Meeting Updates/upcoming events

The Chief Investigator of HDClarity Dr Ed Wild discussed the study during the EHDN conference September 2016 in The Hague.
