

HDClarity

Newsletter

May 2017 Issue 2

Dear HDClarity Teams!

Thank you and congratulations to Toronto, Vancouver, Ulm, Birmingham, Leeds and Glasgow who have successfully completed their SIVs and are now open for recruitment!

Please contact UCL Central Coordination if you have any questions hdclarity-cc@enroll-hd.org

Senior Trials Coordinator: Gail Owen

Study Administrator: Stef Gosling

Sample Processing

! REMINDER: when 200 μ l of the CSF is taken to determine white blood cell count and erythrocyte count; it is put into a tube supplied by your site, NOT any of the tubes provided within the biokits.

! REMINDER: following the blood draw only the 4 green top tubes are placed into ice, NOT the yellow top tube.

Sample Distribution

Any qualified investigator may request samples and data from HDClarity for uses relevant to the aims of the study. To find out more, and to request samples and data, please visit the website

<http://hdclarity.net/request-samples/>

Conference Updates

Ed wild recently talked about biomarkers and the importance of HDClarity at the 12th Annual HD Therapeutics Conference in Malta.

Link to video will soon follow.

Greenphire

Please follow the link below for the Greenphire site training;

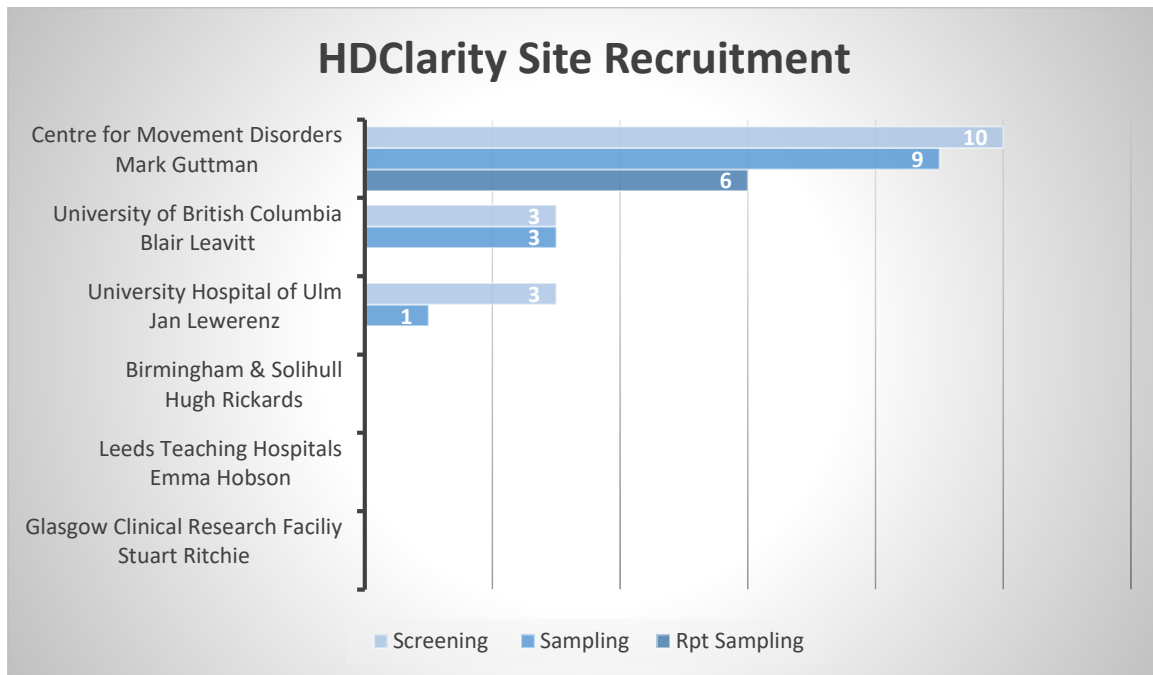

<http://www.screencast.com/t/TUWOChPDFqr4handout>

Please refer to the lab manual and the 2 training videos for further details, all are available on the EDC once you have your logins;
