### REMINDERS

#### Updated HDClarity Lab Manual version 4.0.

The window for sample shipment has changed, the requirement now is to ship samples a minimum of 3 months after collection AND when you have at least 5 participant samples. The only exception to this is if you do not have adequate freezer space and you need to ship earlier than 3 months.

Please update your team of this significant change to shipping and share the new version of the lab manual with them.

Please contact UCL Central Coordination if you have any questions [hdclarity-cc@enroll-hd.org](mailto:hdclarity-cc@enroll-hd.org)
