4 Nations Participating

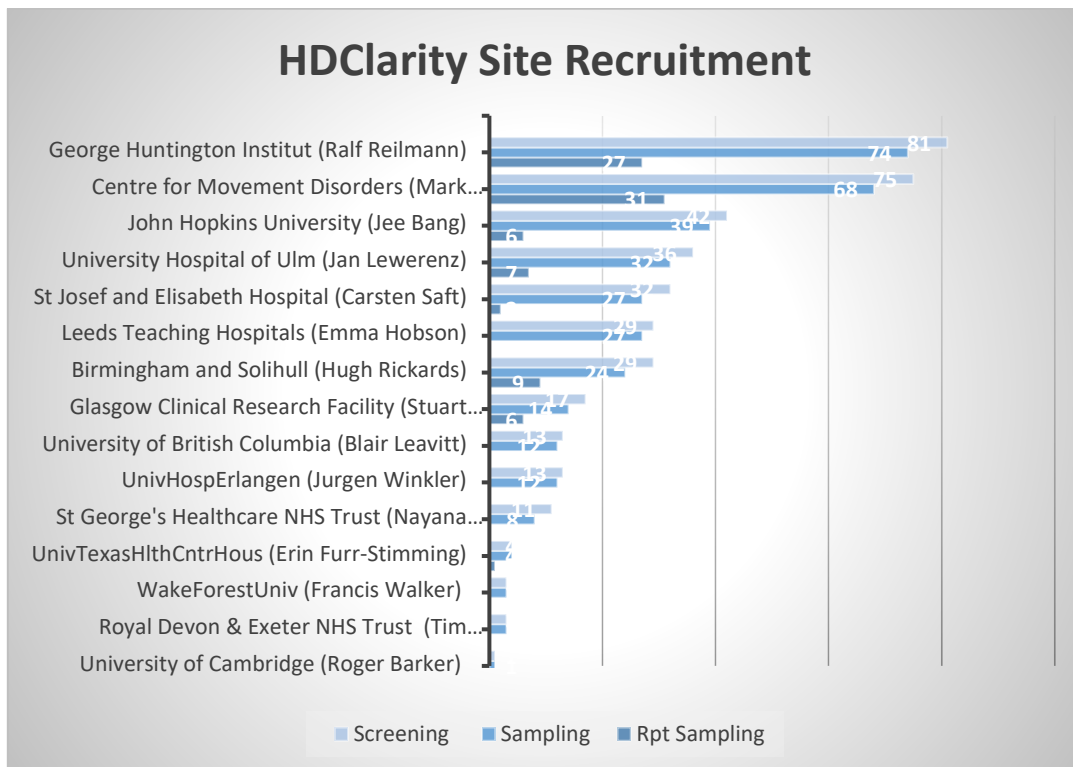

19 Clinical Sites Worldwide

389 Participants

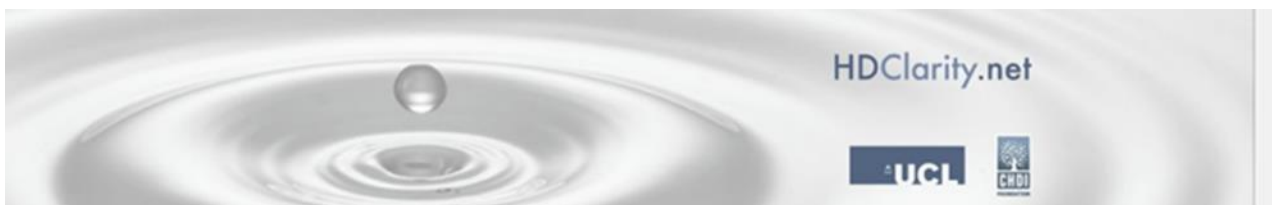

Dear HDClarity Teams!

Thank you to everyone for all of your hard work, we have now completed 348 sampling visits and 89 repeat sampling visits!

Congratulations to Oxford University Hospitals NHS Foundation Trust, University Hospitals Plymouth NHS Trust, Fondazione I.R.C.C.S. Istituto Neurologico Carlo Besta - Milan and Lega Italiana Ricera Huntington – Rome, who are all now official HDClarity clinical sites.

*The chart reflects recruitment data of initiated sites extracted from the HDClarity EDC to date (29st Aug). Any data not yet entered on the EDC will not be shown here.

Recruitment by HDClarity Category

Completed Initial Sampling Visits						
# Early Premanifest HD	# Late Premanifest HD	# Early Manifest HD	# Moderate Manifest HD	# Advanced Manifest HD	# Controls	Total
41	77	134	12	11	73	348

REMINDERS

- Please do not discard partially used kits as the replacements for individual components can be provided if requested by the clinical site.
- Could all sites please use their biokits in ascending numerical order to minimise the risk of biokits expiring.
- Please check your HDClarity biokit availability and expiry date. This should be cross-checked with the clinical site recruitment schedule and HDClarity CC should be informed of any potential issues to ensure planned visits are not disrupted.
- To minimise risk of protocol violations, please ensure that the ICF used during participant visits is the current and most up to date version.

Please contact UCL Central Coordination if you have any questions hdclarity-cc@enroll-hd.org
